NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) DOCUMENTATION FOR DEMOLITION
AND REMOVAL OF TENTS 7, 8 AND 9 PROJECT – KAD-016-99

Attached is a draft categorical exclusion for the subject project. Kaiser-Hill NEPA staff recommends that this project be categorically excluded from further NEPA documentation requirements. The draft Categorical Exclusion Determination is included for your review and an electronic copy of the draft Determination has been made available to you.

Please provide a final NEPA determination for this project at your earliest convenience. If you have any questions or need additional information, please contact me at extension 6034 or Steve Nesta at extension 6386.

DOE NEPA REGULATIONS SUBPART D
CATEGORICAL EXCLUSION (CX) DETERMINATION - RFFO/CX00-99

Proposed Action: Demolition and Removal of Tents 7, 8, and 9.

Location: Rocky Flats Environmental Technology Site, Golden, CO

Proposed by: U.S. Department of Energy Rocky Flats Field Office (DOE, RFFO)

Description of the Proposed Action:

The Rocky Flats Field Office (RFFO) proposes to demolish and remove Tents 7, 8, and 9 at Pad 904. The tents will be cut up and recycled to the extent possible; about 78,000 pounds of metal frame and 20,000 pounds of construction debris and sanitary waste will be generated. All components of the tents will be removed to ground level, and the underlying asphalt pad will be cleaned to meet RCRA closure standards as needed. Cleaning, if necessary, would likely consist of sweeping or washing the asphalt.

Categorical Exclusion to be Applied:

B1.23 Demolition and subsequent disposal of buildings, equipment, and support structures (including, but not limited to, smoke stacks and parking lot surfaces).

Justification:

The project is a small-scale action to demolish and dispose of three facilities (tents) that were used for storing wastes. The three facilities collectively encompass less than 50,000 square feet in area, and are located in a developed area that has utilities and access roads. The facilities will be cleaned to meet applicable RCRA closure standards.

In addition, in accordance with 10 CFR 1021.410(b), the project (a) fits within the class of actions listed in Appendix B of Subpart D of 10 CFR 1021, (b) exhibits no extraordinary circumstances that may affect the significance of its environmental effects, and (c) is not "connected" (per 40 CFR 1508.25[a][1]) to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts (per 40 CFR 1508.25[a][2]), and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

Further, in accordance with 10 CFR 1021, Subpart D, Appendix B, the project would not (1) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, including requirements of DOE and/or Executive Orders, (2) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), (3) disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases; or (4) adversely affect environmentally sensitive resources.

I have determined that the proposed action meets the requirements for a categorical exclusion as defined in Subpart D of 10 CFR 1021. Therefore, I approve the categorical exclusion of the proposed action from further NEPA review and documentation.
